Production Requirements

*Live area: Headlines, body copy, logos, and other critical elements should remain inside the live area to minimize any chance of being trimmed off. Live area must be 0.375" in from trim on all sides (for full page and spread bleed ads only). Electronic files: Supplied PDF files (CMYK & High Quality Print) are preferred with all high-resolution image data embedded within the file. All fonts must be converted to outlines or paths. Ad files may also be furnished in native application file format where the following programs have been used: Adobe Photoshop, Illustrator, or InDesign. All application files must be accompanied by copies of all linked images and fonts used. All image files used must be in .TIF, .JPG or .EPS format. All files should have an effective resolution of 300 dpi at reproduction size.

Email ad materials to katie.schenk@nwfa.org.
