# Custom Colors

Our base colors are only the starting point for all available color options. Unleash your creative side by combining colors and create your own unique color.

# 2K Top

Top it off with Arboritec 2K Finish

Miracle Oil is unique, because it can be top-coated with any Arboritec 2-component waterborne finish for added protection and easier maintenance.

A bright, modern bathroom with a white freestanding bathtub, a bed in an adjacent room, and large windows. The room features light-colored walls, a wooden floor with a herringbone pattern, and a white ceiling with crown molding. The bathtub is positioned in the foreground, and a stack of white towels sits on a small table next to it. In the background, a bed with a dark blanket and pillows is visible through an open doorway. Large windows with white frames and radiators are also present.

# Maintenance

Miracle Oil will make your floors easier to clean and maintain. Clean the floor using dry methods, e.g. dry mopping or vacuuming. Wet cleaning is to be carried out using Arboritec Cleaner included in our Floor Care Kit and Spraymop Kit. Effects of wear and tear can be prevented and the floor can be maintained using Arboritec Satin Maintenance Oil.
